Phuc Anh Dang

Pandahoccode

TOOLS

- Python, SQL, R, SAS
- Microsoft SQL Server/ PostgreSQL Server
- Oracle Data Integrator/ Visual Studio SSIS
- Power BI/ Qlik Sense
- Git & GitHub
- Docker/ Linux
- Apache Airflow

SKILLS

- Curiosity & Continuous Learning
- Problem Solving
- Analytical Thinking
- Teamwork & Collaboration

CERTIFICATION

- **Google Data Analytics**
  Coursera & Google
  07/2025 - 11/2025
- **Oracle AI Foundations**
  Oracle Cloud Infrastructure
  10/2025

LANGUAGES

- English - TOEIC 830
- France - DELF B2
- Vietnamien – Native

ABOUT ME

Curious and motivated, I am passionate about the management and strategic use of data to generate relevant insights. Currently pursuing a BUT in Data Science, I am seeking an opportunity to apply my skills in a stimulating professional environment and learn alongside industry experts. My goal is to contribute to innovative projects in data management and make a positive impact on data utilization.

PROJECTS

Lille Trip Planner — 09/2025 – 01/2026

University Project

Development of an interactive travel planning application for Lille using **Streamlit,** integrating data analysis and real-time transport APIs.

- Optimization of transport costs through SNCF and OpenRouteService **APIs** for easy comparison between train and car.
- Automatic generation of customized itineraries based on budget, dates, and number of travelers.
- Interactive display of local information (hotels, weather, restaurants) on geographic maps.
- Simple and bilingual interface with a dynamic dashboard for managing all travel parameters.

French Cinema Analysis — 02/2025 - 05/2025

University Project

Analysis of the evolution of the French cinema landscape in the face of Covid-19 (2018 baseline), the rise of streaming, and inflation, with data preparation in **Python**, analyses in **R**, and visualization in **Power BI** on 2,042 establishments.

- Highlighting variations in attendance and sector recovery dynamics.
- 75% drop in entries in 2021 compared to 2018, showing the major impact of the health crisis.
- Triple rebound in attendance in 2022, marking a strong recovery post-Covid.
- Maintenance of activity for the majority of cinemas, proof of the sector's great resilience.

Data Warehouse Architecture — 09/2025 – 01/2026

University Project

University project transforming the Chinook database (11 tables) into a star schema data warehouse (reduced to 7 tables) using **Oracle Data Integrator** (ODI) to analyze music sales.

- Development of an automated **ETL pipeline** to extract, transform, and load data from 11 source tables to 7 tables in the DWH.
- Design of an optimized star schema (dimensions + facts) for fast and efficient business intelligence queries.
- Setup of a centralized data warehouse enabling clear analyses on sales.
- Professional use of ODI for data modeling and complete project management.

FORMATION

University of Lille - IUT — 2024 - Present
Bachelor of Data Science (2nd year)

Hanoi - Amsterdam Highschool for the Gifted — 2021 - 2024
